

Le site d'escalade www.nospot.org désirait s'ouvrir à un mode communautaire transversal en permettant aux visiteurs de se connecter en natif via leur compte Gmail, Yahoo, etc.

Pragmawork a donc implémenté un module Google Friend Connect.

L'opération, très simple, ne nécessite que 30 minutes de travail et permet aux utilisateurs de poster commentaires, vidéos et messages privés.

The screenshot displays the Nospot website interface. At the top, the logo "NOSPOT" is visible alongside navigation links: Home, Spot, Tipé, Ton site, Communauté, Event, Photo (highlighted), VOD, Livres, Liens, and MR60. Below the navigation bar, a large photograph of a rocky mountain peak is shown, labeled "DSC03206". To the right of the main image is a sidebar with the "EUD" logo and the text "FRANCE". Below this is a "Random Image" section featuring a smaller photo of a mountain range and a search input field labeled "Cherche un pays...". At the bottom of the page, a section titled "Les commentaires de la communauté Nospot" contains a comment box with the text "... ajoutez votre commentaire ici ...", a "Message" button, and two user comments. The first comment is by "Alain Robert" with the text "La légende de l'homme araignée" and a small image. The second comment is by "entorse et foulure... que de doux souvenirs!". A "Google Traduction" link is located at the bottom left of the comment section.
