

Pragmawork peut assurer la création de module spécifique pour les CMS en fonction de vos besoins.

Ainsi, notre équipe a créé un module pour le CMS Joomla afin de gérer des vidéos.

Ce module a été implémenté sur le site [LibertyTUBE](http://LibertyTUBE) .

The screenshot displays the LibertyTube website interface. At the top left is the LibertyTube logo with the tagline "broadcast your story". A prominent yellow banner at the top right features the text "Brussels → Riga, Vilnius from EUR 77" and the "airBaltic.com" logo. Below this is a navigation menu with tabs for "Accueil", "Hôtels", "Destinations", "Emissions TV", "Professionnel", "Uploadez", "Live", and "Forum". The main content area is divided into several sections: a search box on the left with a "Rechercher" button; a central world map; a login form on the right with fields for "Nom d'utilisateur" and "Mot de passe", a "Se connecter" button, and links for "Mot de passe oublié ?" and "Enregistrez-vous"; and a vertical promotional banner on the far right for "Bruxelles > Tallinn" starting at "99€\*", with details for the sale period (18.11-02.12) and travel dates (01.01-31.03.2009). At the bottom left, another banner for "Bruxelles > Tallinn" is visible. Below the map, there is a section titled "A la une" with the sub-heading "Le centre de San Francisco" and a small map of the region.
